

SAFE ROOFTOP SOLAR:

THE TITANIUM-ZINC ZINTEK® SYSTEM HAS B_{ROOF} (t3) CLASSIFICATION

under **UNI EN 13501-5**, based on **CEN/TS 1187** external fire exposure testing. B_{ROOF} classification covers the **entire roof system** and not the individual product, and requires laboratory tests.

THE **ZINTEK® B_{ROOF} (t3) SYSTEM** MEETS THE FIRE SAFETY REGULATIONS SET OUT IN **DCPREV no. 0014030 of 01/09/2025**, ENSURING **DURABILITY AND SAFETY IN STANDING SEAM ROOFS** IN BOTH DOMESTIC AND INDUSTRIAL SETTINGS.

A sample of the system during testing at a notified laboratory

A sample of the system after the test, with the titanium-zinc zintek® surface still intact

For a performance assessment with different substrate types or for extended application test reports (pursuant to UNI EN 13501-5), please contact the Zintek Technical Office.
